Partnering for success—efficient exchange of information.

We have one goal in common—to help you exceed your customers’ expectations. We enable accelerated processing of parcels by automating all pre-shipment documentation. Via individual FTP accounts, we exchange important shipping information that allows you to process, track and ship more efficiently. Please provide an electronic file of data that includes key information, such as:

- Recipient’s full address and phone number
- Detailed item description
- Reference number (e.g., invoice number or order number)

Direct marketing without boundaries.

Aside from the customers you serve with *GLOBALMAIL PARCEL TRACK & TRACE* – Japan, you can attract new customers with *GLOBALMAIL BUSINESS™*—the quick and cost-effective solution for your direct mail and catalog mail to almost any target group in major markets worldwide. We handle it all, from planning a mailing campaign to list management preparation of your pieces for distribution. With DHL Global Mail™ as your partner, you can maximize these opportunities today.
